

### BESCHREIBUNG

The 6502 set is both a playhouse and a play center in one. Numerous manipulative panels positively influence the development of fine motor skills and satisfy children's curiosity and need to explore the world through experience. The shop and kitchen panels provide interesting spots for early role-playing games and offer opportunities for integration, teaching cooperation and group interaction. Construction: load-bearing posts made from stainless steel pipes with a diameter of 76.1 mm. Anchoring: directly in the ground. Roofs and safety panels: panels made from flexible high-pressure polyethylene HDPE (15 mm). Steel components: fittings and connectors made from stainless steel.
