

### BESCHREIBUNG

The 6505 set is a tower with a slide, a porthole for observing the surroundings from a different perspective, and safe stairs – perfect for more active toddlers. For those who prefer static play, the lower part of the structure offers manipulative panels in the form of a shop and a game of uncovering puzzles. Construction: load-bearing posts made from stainless steel pipes with a diameter of 76.1 mm. Anchoring: directly in the ground. Roofs and safety panels: panels made from flexible high-pressure polyethylene HDPE (15 mm). Steel components: fittings and connectors made from stainless steel.
